Report on Consolidated Financial Statements

To: The shareholders of Juhayna Food Industries S.A.E

Introduction

We have audited consolidated balance sheet of Juhayna Food Industries S.A.E, as of 31 December 2017 and the related consolidated statements of income, comprehensive income, changes in equity and cash flows for the financial year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Financial Statements

These consolidated financial statements are the responsibility of Company's management. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Egyptian Accounting Standards and in the light of the prevailing Egyptian laws, management responsibility includes, designing, implementing and maintaining internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error; management responsibility also includes selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Egyptian Standards on Auditing and in the light of the prevailing Egyptian laws. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the consolidated financial statements are free from material misstatement.

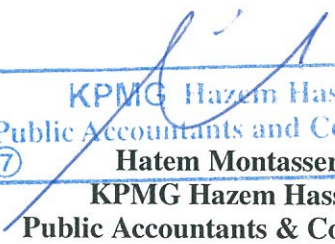

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company as at 31 December 2017, and of its financial performance and its cash flows for the year then ended in accordance with Egyptian Accounting Standards and the Egyptian laws and regulations relating to the preparation of these financial statements.

Juhayna Food Industries
(An Egyptian Joint Stock Company)
Notes to the consolidated financial statements
For the financial year ended 31 December 2017

1 Reporting the entity

The Company was established in 1995 according to the Investment Law No.(230) of 1989 as replaced by the investment incentives and guarantees law No. (8) of 1997 and the decree of the Minister of Economic and Foreign Trade No. 636 of 1994 approving the Company's establishment.

The Company was registered in the commercial registry under No. 100994 on 10/1/1995. Company's period is 25 years starting from the date of registration in the commercial registry.

The address of the Company's registered office is 11 Aljihad Street- Lebanon Square- Almohandessien. The address of the company's factories is 6 of October city- First Industrial Zone- piece no. 39 and 40,

Mr. Safwan Thabet is the Chairman of the Board of Directors.

The Company is considered a holding Company.

The Company's purpose

The Company primarily is involved in the production, manufacture, packaging and packing of all types of dairy, products and all its derivatives, all types of cheeses, fruit juices, drinks and frozen material, preparing, manufacturing, packaging and packing all types of food materials and in general manufacturing of agriculture products.

Registration in the Stock Exchange

The Company is listed in the Egyptian Stock Exchanges.

2 Basis of preparation

2-1 Statement of compliance

The consolidated financial statements have been prepared in accordance with Egyptian Accounting Standards ("EAS"), and in the light of prevailing Egyptian laws.

The financial statements were authorized for issue by the Board of Directors on 30 January 2018.

2-2 Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for the following material items in the balance sheet.

- Non-derivative financial liabilities at fair value through profit or loss are measured at fair value (Note 4-1).

- Biological assets and Agricultural crops at fair value after reduce the cost of sale (note 4-2).

The methods used to measure fair values are discussed further in note (4).

2-3 Functional and presentation currency

These consolidated financial statements are presented in Egyptian pound, which is the Company's functional currency.

2-4 Use of estimates and judgments

The preparation of consolidated financial statements in conformity with Egyptian Accounting Standards requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimate is revised and in any future periods affected.

Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the financial year ended 31 December 2017

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

- Note (3-10) : lease classification.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial statements are included in the following notes:

- Note (18) : impairment of trade and notes receivable.
- Note (23) : provisions & contingent liabilities
- Note (27) : deferred tax.

3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements.

3-1 Basis of consolidation

Subsidiaries

Subsidiaries are entities controlled by the Company. The financial statement of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Investments in equity accounted investees (associates)

Associates are those entities in which the Company has significant influence, but not control, over the financial and operating policies. Investments in associates is accounted for using the equity method and is recognized initially at cost. The cost of the investment include transaction costs. The consolidated financial statements include the Company's share of the income and expenses of equity accounted investees, after adjustments to align the accounting policies with those of the Company, from the date that significant influence commences until the date that significant influence ceases. When the Company's share of losses exceeds its interest in an equity accounted investee, the carrying amount of that interest including any long-term interests that from part thereof is reduced to zero, and the recognition of further losses is discontinued except to the extent that the Company has an obligation or has made payments on behalf of the investee.

Transactions eliminated on consolidation

Intra-group balances, and any unrealized income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealized gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Company's interest in the investee. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

3-2 Foreign currency

Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currency at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date.

Non-monetary assets and liabilities that are measured at fair value in a foreign currency are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the financial year ended 31 December 2017

3-3 Investment under joint control

The companies under joint control are companies that practice a joint control on the investee company, the investment under joint controls are included in the consolidated financial statement using the equity method.

3-4 Financial instruments

Non-derivative financial assets

The Company initially recognises receivables and deposits on the date that they are originated. All other financial assets (including assets designated at fair value through profit or loss) are recognised initially on the trade date, which is date that the Company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Company is recognised as a separate asset or liability.

Financial assets and liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

The Company classifies non – derivative financial assets into the following categories: financial assets at fair value through profit or loss, held-to-maturity financial assets, loans and receivables and available-for sale financial assets.

Receivables

Receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs.

Generally, short-duration trade and other receivables with no stated interest rate are stated at their nominal value (original invoice amount) less an allowance for any doubtful debts.

Receivables comprise cash and cash equivalents, and trade and other receivables.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits with original maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value, and are used by the Company in the management of its short-term commitments.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale or are not classified in any of the above categories of financial assets. Available –for-sale financial assets are recognized initially at fair value plus any directly attributable transaction costs.

Subsequent to initial recognition, they are measured at fair value and changes therein, other than impairment losses and foreign currency differences on available-for sale debt instruments, presented in fair value reserve in equity. When an investment is derecognised, the gain or loss accumulated in equity is reclassified to profit or loss.

Available-for-sale financial assets comprise equity securities and debt securities.

Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the financial year ended 31 December 2017

Non-derivative financial liabilities

The Company initially recognizes debt securities issued and subordinated liabilities on the date that they are originated. All other financial liabilities (including liabilities designated as at fair value through profit or loss) are recognized initially on the trade date, which is the date that the Company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial liability when its contractual obligations are discharged, cancelled or expire.

The Company classifies non – derivative financial liabilities into the other financial liabilities category. Such financial liabilities are recognised initially at the fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest method.

Other financial liabilities comprise loans and borrowings, bank overdrafts, and trade and other payables. Generally, trade payables are recorded at their nominal value.

Bank overdrafts that are repayable on demand and form an integral part of the Company's cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

Capital

Authorized capital

The Company's authorized capital amounts to L.E 5 billion.

Issued and paid up capital

The Company's issued and fully paid up capital at the beginning of the year was amounted to L.E 941 405 082 (Nine hundred forty one million and four hundred five thousands and eighty two) divided into 941 405 082 (Nine hundred forty one million and four hundred five thousands and eighty two) shares at par value L.E 1 each.

Repurchase, disposal and reissue of share capital (treasury shares)

When share capital recognised as equity is repurchased, the amount of the consideration paid, which includes directly attributable costs, net of any tax effects, is recognised as a deduction from equity. Repurchased shares are classified as treasury shares and are presented in the reserve for own shares. When treasury shares are sold or reissued subsequently, the amount received is recognised as an increase in equity, and the resulting surplus or deficit on the transaction is presented in share premium.

3-5 Property, plant and equipment

Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses (note 11).

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the asset to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located, and capitalized borrowing costs.

Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the financial year ended 31 December 2017

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

The gain and loss on disposal of an item of property, plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and is recognized net within other income/other expenses in profit or loss.

Subsequent costs

The cost of replacing a component of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced component is derecognized. The costs of the day-to-day servicing of property, plant and equipment are recognized in profit or loss as incurred.

Depreciation

Depreciation is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment. Land is not depreciated.

The estimated useful lives are as follows:

Description	Estimated useful life (Years)
Buildings & Construction	13.3- 50
Machinery & Equipment	1-13
Transportation & Transport Vehicles	1.5- 8
Tools	1.08 – 10
Office equipment & Furniture	1-10
Empty plastic containers & pallets	5
Computers	3.33-5
Wells	25 or Wells useful life

Depreciation commences when the fixed asset is completed and made available for use.

Depreciation method useful life and residual value are reviewed at each date and adjusted of appropriate.

3-6 Projects under construction

Expenditures incurred on purchasing and constructing fixed assets are initially recorded in projects under construction until the asset is completed and becomes ready for use. Upon the completion of the assets, all related costs are transferred to fixed assets. Projects under construction are measured at cost less accumulated impairment losses (note no. 12). No depreciation is charged until the project is completed and transferred to fixed asset

3-7 Government grants

Government grants related to assets – including non monetary grants which recorded at fair value – presented in financial statement as deferred income (grants considered deferred income and recorded in income statement according to regular systematic basis over the estimated useful life of assets)

Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the financial year ended 31 December 2017

3-8 Plant wealth

This item represents in the amounts spent for cultivation of fruit trees and protect trees (Kazhurana) which were recognized as non current assets in the balance sheet in projects in progress caption and when it reaches the planned marginal productivity it will be classified as non current assets (plant wealth), and will be depreciated over (25 and 50) years respectively according to the nature of those assets.

3-9 Biological assets

A biological asset is measured on initial recognition and on every reporting date at its fair value less costs to the point of sale capability. A biological asset "harvested agricultural product" is measured at the point of harvest at fair value less costs to the point of sale capability. Profit or loss resulting from the initial recognition of a biological asset at fair value costs to the point of sale capability and from the change in fair value less costs to the point of sale capability of the biological asset is recorded in profit or loss for the period in which it arises, profit or loss resulting from the initial recognition of agricultural product at fair value less costs to the point of sale capability is recorded in profit or loss for the period in which it arises .

When there is no market available to determine prices and values, which the alternative estimates of fair value have shown clearly that it cannot be relied upon, in this case the biological asset is measured at its cost less any accumulated amortization and any accumulated impairment of value. Once the possibility of measuring the fair value of these assets are reliably established, the Company measures it at its fair value less costs to the point of sale capability.

3-10 Leases

Company is the lessee:

Leases are classified as operating leases. The costs in respect of operating leases are charged on a straight-line basis over the lease term. The value of any lease incentive received to take on an operating lease (for example, rent-free periods) is recognized as deferred income and is released over the life of the lease.

3-11 Goodwill

Goodwill is initially measured at its cost, being the excess of the cost of the business combination over the Group's interest in the net fair value of identifiable assets, liabilities and contingent liabilities. After initial recognition, the group measures acquired goodwill at cost less impairment losses. Recognized goodwill impairment losses are not subsequently reversed.

3-12 Inventories

Inventories of raw materials, supplies, packaging & packing materials and spare parts are measured at the lower of cost or net realizable value. The cost of inventories is based on the weighted average principle, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. Net realizable value is the estimated selling price, in the ordinary course of business, less estimated costs of the completion and selling expenses.

The inventory of work in process is measured at the lower of cost, which is determined based on the lower of the cost last process the work in process reached, or net realizable value.

Finished production is measured at the lower of manufacturing cost or net realizable value. The manufacturing cost comprises raw materials, direct labor, and cost includes an appropriate share of overheads based on normal operating capacity.

Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the financial year ended 31 December 2017

3-13 Impairment

Non –derivative financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

Non-financial assets

The carrying amounts of the Company's non-financial assets, other than biological assets, investment property, inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For intangible assets that have indefinite useful lives, the recoverable amount is tested annually for impairment.

An impairment loss is recognized if the carrying amount of an asset or cash – generating unit (CGU) exceeds its recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGU.

Impairment losses are recognized in profit or loss. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

3-14 Defined contribution plans

The Company contributes to the government social insurance system for the benefits of its personnel in accordance with according to the social insurance Law No. 79 of 1975 and its amendments. Under this Law the employees and the employers contribute into the system on a fixed percentage – of- salaries basis. The Company's contributions are recognized in income statement using the accrual basis of accounting. The company's obligation in respect of employees' pensions is confined to the amount of aforementioned contributions.

3-15 Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

3-16 Revenue

Goods sold

Revenue from the sale of goods in the course of ordinary activities is measured at the fair value of the consideration received or receivable, net of returns, trade discounts and volume rebates.

Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the financial year ended 31 December 2017

Revenue is recognized when persuasive evidence exists, usually in the form of an executed sales agreement, that the significant risks and rewards of ownership have been transferred to the customer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably. If it is probable that discounts will be granted and the amount can be measured reliably, then the discount is recognized as a reduction of revenue as the sales are recognized.

3-17 Rental income

Rental income from other assets is recognized in other income.

3-18 Finance income and finance costs

Finance income comprises interest income on funds invested (including available-for-sale financial assets), dividend income, gains on the disposal of available-for-sale financial assets, fair value gains on financial assets at fair value through profit or loss. Interest income is recognized as it accrues in profit or loss, using the effective interest method. Dividend income received from investments is recognized in profit or loss on the date of collection.

Finance costs comprise interest expense on borrowings, fair value losses on financial assets at fair value through profit or loss, impairment losses recognized on financial assets.

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognized in profit or loss using the effective interest method.

Foreign currency gains and losses are reported on a net basis as either finance income or finance cost depending on whether foreign currency movements are in a net gain or net loss position.

3-19 Income tax

Income tax on profit or loss for the year comprises current and deferred tax. Income tax is recognized in the income statement except to the extent that it relates to items recognized directly on equity, in which case it is recognized in equity. Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

3-20 Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the reporting date.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

3-21 Assets held for sale or held for distribution

Non-current assets, or disposal groups comprising assets and liabilities, are classified as held-for-sale or held-for-distribution if it is highly probable that they will be recovered primarily through sale or distribution rather than through continuing use.

Immediately before classification as held-for-sale or held-for-distribution, the assets, or components of a disposal group, are premeasured in accordance with the Company's other accounting policies.

Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the financial year ended 31 December 2017

Thereafter, generally the assets, or disposal group, are measured at the lower of their carrying amount and fair value less costs to sell. Any impairment loss on a disposal group is allocated to the remaining assets and liabilities on a pro rata basis, except that no loss is allocated to inventories, financial assets, deferred tax assets, employee benefit assets, investment property or biological assets, which continue to be measured in accordance with the Company's other accounting policies. Impairment losses on initial classification as held-for-sale or held-for-distribution and subsequent gains and losses on remeasurement are recognized in profit or loss. Gains are not recognized in excess of any cumulative impairment loss.

Once classified as held-for-sale or held-for-distribution, intangible assets and property, plant and equipment are no longer amortized or depreciated, and any equity-accounted investee is no longer equity accounted.

3-22 Legal reserve

According to the Companies Law requirements and the statutes of the Company, 5% of the annual net profit shall be transferred to a legal reserve until the accumulated reserve reaches 50% of the issued share capital. The reserve is un-distributable; however, it can be used to increase the share capital or to offset losses. If the reserve falls below the defined level (50% of the issued share capital), then the Company is required to resume setting aside 5% of the annual profit until it reaches 50% of the issued share capital.

3-23 End of service benefits

End of service benefits are recognized as an expense when the company is committed clearly-without having the possibility of cancellation – a formal detailed plan to either finish the work before the normal retirement date or to provide end of service benefits as a result of resignations (voluntary) / left the work voluntarily according to law (12) of 2003 and related Egyptian Laws.

If the bonus is payable for a period of more than 12 months after the date of preparation of the financial statements, they is reduced to their present value.

4 Determination of fair value

A number of the Company's accounting policies and disclosures require the determination of fair value, for both financial and non- financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes. Where applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

4-1 Non-derivative financial liabilities

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date.

4-2 Biological assets

At fair value less costs to the point of sale capability.

Juhayna Food Industries Company (S.A.E.)

29 Financial instruments**Financial risk management****Overview**

The Group has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk.

Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board is responsible for developing and monitoring the Company's risk management policies.

Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the financial year ended 31 December 2017

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's Board oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Company's Board is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the B.O.D.

Credit risk

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer including the default risk of the industry in which customers operate, as these factors may have an influence on credit risk

Trade and other receivables

The Company is dealing with one main customer (related party), which in turn distributes the credit risk on a number of customers who enjoy strong and stable financial positions. It also deals with its customers through contracts and agreements concluded with them, in addition the Company (related party) review the credit limits granted to customers on a regular basis as it gets sufficient guarantees from its customers.

Credit risk**Exposure to credit risk**

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	Note	Carrying amount	
		31/12/2017	31/12/2016
		L.E.	L.E.
Trade receivables	(18)	178 694 168	112 579 659
Banks credit facilities	(22)	518 651 701	1 049 803 834
Total long term loans	(21)	1 080 863 321	1 094 538 017

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company uses activity-based costing to cost its products and services, which assists it in monitoring cash flow requirements and optimizing its cash return on investments. Typically the company ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 60 days, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters. In addition, the Company maintains the following lines of credit:

Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the financial year ended 31 December 2017

A credit facility in a principal amount of L.E 518 651 701 on which the interest is charged at a variable interest rate for Facilities in Egyptian pound and US Dollars facilities.

Liquidity risk

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements:

	Carrying amount L.E.	Contractual cash flows L.E.
Credit facilities	518 651 701	1 891 000 000

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimising the return.

The Company incurs financial liabilities, in order to manage market risks. All such transactions are carried out within the guidelines set by the Management.

Currency risk

The Company is exposed to currency risk on sales, purchases and borrowings that are denominated in a currency other than the respective functional currencies of the Company, primarily the L.E. The currencies in which these transactions primarily are denominated are Euro, USD, and Swiss Francs (CHF).

In respect of other monetary assets and liabilities denominated in foreign currencies, the Company's policy is to ensure that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term imbalances.

Foreign currency risk

Exposure to currency risk

The Group's exposure to foreign currency risk was as follows based on notional amounts:

	USD	Euro	GBP
Trade and other debit balances	3 881 024	4 508	-
Cash and cash equivalents	1 692 807	42 148	4 404
Credit facilities	(381 819)	(583)	-
Trade and other payables	(11 951 432)	(742 429)	(78 607)
31 December 2017	(6 759 420)	(696 356)	(74 203)
31 December 2016	(12 841 589)	(1 409 909)	(94 664)

Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the financial year ended 31 December 2017

The following significant exchange rates applied during the year:

	Average rate		Actual closing Rate	
	2017	2016	2017	2016
USD	18,095	13.11	17,78	18.41
Euro	20,295	13.90	21,34	19.25

Sensitivity analysis

A weakening of the Egyptian Pound, as indicated above, against the USD and Euro at 31 December 2017 would have decreased equity and profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Company considered to be reasonably possible at the end of the reporting date. The analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecasted sales and purchases. The analysis is performed on the same basis for 2016.

Effect of 10 %

	Profit/(Loss)	
	31/12/2017	31/12/2016
	L.E.	L.E.
USD	(12 231 171)	(23 629 074)
Euro	(1 413 254)	(2 704 075)
GBP	(178 342)	(202 984)
	(13 822 767)	(26 536 133)

Interest rate risk

The Company adopts a policy of ensuring that its exposure to changes in interest rates on borrowings is on a fixed-rate basis, taking into account assets with exposure to changes in interest rates.

Capital management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Capital consists of paid up capital and retained earnings. The Board of Directors monitors the return on capital, as well as the level of dividends to shareholders.

	31/12/2017	31/12/2016
	L.E.	L.E.

USD	14.2757	13.5277
EURO	15.8389	15,0076

In accordance with the float exchange rate, the Central Bank of Egypt also increased its overnight deposit and lending rates by 300 basis points to 14.75% and 15.75%, respectively. Which may affect the Company's revenue and financing costs.

- 37 **New issuance and amendments on the Egyptian accounting standards that is not effective yet:**
During 2015 new modified version of the Egyptian Accounting Standards was issued that includes new accounting standards and amendments to some existing standards, to be effective for the periods starting January 2016.

The following table shows the amendments that may have significant effect on the financial statements:-

New or Amended Standards	Summary of the Most Significant Amendments	Possible Impact on the Financial Statements
<u>EAS (1)</u> Presentation of Financial Statements	<p><u>Financial Position Statement</u> The Standard does not require to present the working capital, also the F/S references model issuance 2006 excluded the presentation of working capital. A statement shall be added to the statement of financial position including balances of the beginning of the first presented comparative period in case of retrospective implementation or change in an accounting policy or reclassification carried out by the entity.</p> <p><u>Income Statement (Profit or Loss)/Statement of Comprehensive Income</u> The entity shall disclose all recognized income and expense captions during the financial period in two separate statements; one of them presents the profit or loss components (<i>Income Statement</i>) and the other one starts with the profit or loss and presents the other comprehensive income items (<i>Statement of Comprehensive Income</i>).</p>	<ul style="list-style-type: none"> • Re-presenting all the presented financial statements, disclosures and their accompanying notes including the comparative figures to be in conformity with the required amendments to the Standard. • Adding a new statement, <i>Statement of Comprehensive Income</i>, for the current and comparative period.
