## **Report on Consolidated Financial Statements**

**To: The shareholders of Juhayna Food Industries S.A.E**

### ***Introduction***

We have audited consolidated balance sheet of Juhayna Food Industries S.A.E, as of 31 December 2015 and the related consolidated statements of income, changes in equity and cash flows for the financial year then ended, and a summary of significant accounting policies and other explanatory notes.

### ***Management's Responsibility for the Financial Statements***

These consolidated financial statements are the responsibility of Company's management. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Egyptian Accounting Standards and in the light of the prevailing Egyptian laws, management responsibility includes, designing, implementing and maintaining internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error; management responsibility also includes selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

### ***Auditors' Responsibility***

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Egyptian Standards on Auditing and in the light of the prevailing Egyptian laws. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

**Opinion**

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company as at 31 December 2015, and of its financial performance and its cash flows for the year then ended in accordance with Egyptian Accounting Standards and the Egyptian laws and regulations relating to the preparation of these financial statements.

**Juhayna Food Industries**  
**(An Egyptian Joint Stock Company)**  
**Notes to the consolidated financial statements**  
**For the financial year ended 31 December 2015**

**1 Reporting the entity**

The Company was established in 1995 according to the Investment Law No.(230) of 1989 as replaced by the investment incentives and guarantees law No. (8) of 1997 and the decree of the Minister of Economic and Foreign Trade No. 636 of 1994 approving the Company's establishment.

The Company was registered in the commercial registry under No. 100994 on 10/1/1995. Company's period is 25 years starting from the date of registration in the commercial registry.

The address of the Company's registered office is 11 Aljihad Street- Lebanon Square- Almohandessien.

The address of the company's factories is 6 of October city- First Industrial Zone- piece no. 39 and 40,

Mr. Safwan Thabet is the Chairman of the Board of Directors.

The Company is considered a holding Company.

**The Company's purpose**

The Company primarily is involved in the production, manufacture, packaging and packing of all types of dairy, products and all its derivatives, all types of cheeses, fruit juices, drinks and frozen material, preparing, manufacturing, packaging and packing all types of food materials and in general manufacturing of agriculture products.

**Registration in the Stock Exchange**

The Company is listed in the Egyptian Stock Exchanges.

**2 Basis of preparation**

**2-1 Statement of compliance**

The financial statements have been prepared in accordance with Egyptian Accounting Standards ("EAS"), and in the light of prevailing Egyptian laws.

The financial statements were authorized for issue by the Board of Directors on 21/01/2016.

**2-2 Basis of measurement**

The consolidated financial statements have been prepared on the historical cost basis except for the following material items in the balance sheet.

- Non-derivative financial liabilities at fair value through profit or loss are measured at fair value (note 4-1).

- Biological assets and Agricultural crops at fair value after reduce the cost of sale (note 4-2).

The methods used to measure fair values are discussed further in note (4).

**2-3 Functional and presentation currency**

These consolidated financial statements are presented in Egyptian pound, which is the Company's functional currency.

**2-4 Use of estimates and judgments**

The preparation of consolidated financial statements in conformity with Egyptian Accounting Standards requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimate is revised and in any future periods affected.

## Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the year ended 31 December 2015

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

- Note (3-9) : lease classification.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial statements are included in the following notes:

- Note (17) : impairment of trade and notes receivable.
- Note (23) : provisions & contingent liabilities
- Note (27) : deferred tax.

### 3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these interim consolidated financial statements.

#### 3-1 Basis of consolidation

##### Subsidiaries

Subsidiaries are entities controlled by the Company. The financial statement of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

##### Investments in equity accounted investees (associates)

Associates are those entities in which the Company has significant influence, but not control, over the financial and operating policies. Investments in associates is accounted for using the equity method and is recognized initially at cost. The cost of the investment include transaction costs. The consolidated financial statements include the Company's share of the income and expenses of equity accounted investees, after adjustments to align the accounting policies with those of the Company, from the date that significant influence commences until the date that significant influence ceases. When the Company's share of losses exceeds its interest in an equity accounted investee, the carrying amount of that interest including any long-term interests that from part thereof is reduced to zero, and the recognition of further losses is discontinued except to the extent that the Company has an obligation or has made payments on behalf of the investee.

##### Transactions eliminated on consolidation

Intra-group balances, and any unrealized income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealized gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Company's interest in the investee. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

#### 3-2 Foreign currency

##### Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currency at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date.

Non-monetary assets and liabilities that are measured at fair value in a foreign currency are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the year ended 31 December 2015

### 3-3 Financial instruments

#### Non-derivative financial assets

The Company initially recognises receivables and deposits on the date that they are originated. All other financial assets (including assets designated at fair value through profit or loss) are recognised initially on the trade date, which is date that the Company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Company is recognised as a separate asset or liability.

Financial assets and liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

The Company classifies non – derivative financial assets into the following categories: financial assets at fair value through profit or loss, held-to-maturity financial assets, loans and receivables and available-for sale financial assets.

#### Receivables

Receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs.

Generally, short-duration trade and other receivables with no stated interest rate are stated at their nominal value ( original invoice amount) less an allowance for any doubtful debts.

Receivables comprise cash and cash equivalents, and trade and other receivables.

#### Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits with original maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value, and are used by the Company in the management of its short-term commitments.

#### Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale or are not classified in any of the above categories of financial assets. Available –for-sale financial assets are recognized initially at fair value plus any directly attributable transaction costs.

Subsequent to initial recognition, they are measured at fair value and changes therein, other than impairment losses and foreign currency differences on available-for sale debt instruments, presented in fair value reserve in equity. When an investment is derecognised, the gain or loss accumulated in equity is reclassified to profit or loss.

Available-for-sale financial assets comprise equity securities and debt securities.

Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the year ended 31 December 2015

### **Non-derivative financial liabilities**

The Company initially recognizes debt securities issued and subordinated liabilities on the date that they are originated. All other financial liabilities (including liabilities designated as at fair value through profit or loss) are recognized initially on the trade date, which is the date that the Company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial liability when its contractual obligations are discharged, cancelled or expire.

The Company classifies non – derivative financial liabilities into the other financial liabilities category. Such financial liabilities are recognised initially at the fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest method.

Other financial liabilities comprise loans and borrowings , bank overdrafts, and trade and other payables. Generally, trade payables are recorded at their nominal value.

Bank overdrafts that are repayable on demand and form an integral part of the Company's cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

### **Capital**

#### **Authorized capital**

The Company's authorized capital amounts to L.E 5 billion.

#### **Issued and paid up capital**

The Company's issued and fully paid up capital at the beginning of the year was amounted to L.E 941 405 082 (Nine hundred forty one million and four hundred five thousands and eighty two) divided into 941 405 082 (Nine hundred forty one million and four hundred five thousands and eighty two) shares at par value L.E 1 each.

#### **Repurchase, disposal and reissue of share capital (treasury shares)**

When share capital recognised as equity is repurchased, the amount of the consideration paid, which includes directly attributable costs, net of any tax effects, is recognised as a deduction from equity. Repurchased shares are classified as treasury shares and are presented in the reserve for own shares. When treasury shares are sold or reissued subsequently, the amount received is recognised as an increase in equity, and the resulting surplus or deficit on the transaction is presented in share premium.

## **3-4 Property, plant and equipment**

### **Recognition and measurement**

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses (note 11).

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the asset to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located, and capitalized borrowing costs.

Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the year ended 31 December 2015

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

The gain and loss on disposal of an item of property, plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and is recognized net within other income/other expenses in profit or loss.

#### Subsequent costs

The cost of replacing a component of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced component is derecognized. The costs of the day-to-day servicing of property, plant and equipment are recognized in profit or loss as incurred.

#### Change in accounting estimate of fixed assets:-

The company's management during the fiscal period ended March 31, 2015 test to the efficiency of operation of the assets owned productivity and life expectancy for each group of assets of company-owned assets and the result of this test change in the useful lives of the projected plant and equipment and the economic benefits which the administration intends to exploit varying periods as described below and was expected to remain in production for longer periods than what is the case previously, as shown below, resulting in an increase in the life span of these plant and equipment in accordance with the technical opinion in this regard.

The estimated useful lives for the current and comparative periods are as follows:

Description	Years before adjustment useful lives at January 2015 (Years)	Years after adjustment useful lives at January 2015 (Years)
Buildings & Construction	13.3- 50	13.3- 50
Machinery & Equipment	1-10	1-13
Transportation & Transport Vehicles	1.5- 8	1.5- 8
Tools	1.08 – 10	1.08 – 10
Office equipment & Furniture	1-10	1-10
Empty plastic containers & pallets	5	5
Computers	3.33-5	3.33-5
Wells	25 or Wells useful life	25 or Wells useful life

Depreciation commences when the fixed asset is completed and made available for use.

Depreciation method useful life and residual value are reviewed at each date and adjusted of appropriate.

The effect of these adjustments has been recognized during years 2015, on the depreciation expenses in the income statement as an expenses as follows

31/12/2015

L.E

47 074 027

(Decrease) in depreciation expense machine & equipment

Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the year ended 31 December 2015

### **3-5 Projects under construction**

Expenditures incurred on purchasing and constructing fixed assets are initially recorded in projects under construction until the asset is completed and becomes ready for use. Upon the completion of the assets, all related costs are transferred to fixed assets. Projects under construction are measured at cost less accumulated impairment losses (note no. 12). No depreciation is charged until the project is completed and transferred to fixed asset

### **3-6 Government grants**

Government grants related to assets – including non monetary grants which recorded at fair value – presented in financial statement as deferred income ( grants considered deferred income and recorded in income statement according to regular systematic basis over the estimated useful life of assets )

### **3-7 Plant wealth**

This item represents in the amounts spent for cultivation of fruit trees and protect trees (Kazhurana) which were recognized as long term assets in the balance sheet in projects in progress caption and when it reaches the planned marginal productivity it will be classified as long-term assets (plant wealth), and will be depreciated over (25 and 50) years respectively according to the nature of those assets.

### **3-8 Biological assets**

A biological asset is measured on initial recognition and on every reporting date at its fair value less costs to the point of sale capability. A biological asset "harvested agricultural product" is measured at the point of harvest at fair value less costs to the point of sale capability. Profit or loss resulting from the initial recognition of a biological asset at fair value costs to the point of sale capability and from the change in fair value less costs to the point of sale capability of the biological asset is recorded in profit or loss for the period in which it arises, profit or loss resulting from the initial recognition of agricultural product at fair value less costs to the point of sale capability is recorded in profit or loss for the period in which it arises .

When there is no market available to determine prices and values, which the alternative estimates of fair value have shown clearly that it cannot be relied upon, in this case the biological asset is measured at its cost less any accumulated amortization and any accumulated impairment of value. Once the possibility of measuring the fair value of these assets are reliably established, the Company measures it at its fair value less costs to the point of sale capability.

### **3-9 Leases**

**Company is the lessee:**

Leases are classified as operating leases. The costs in respect of operating leases are charged on a straight-line basis over the lease term. The value of any lease incentive received to take on an operating lease (for example, rent-free periods) is recognized as deferred income and is released over the life of the lease.

### **3-10 Goodwill**

Goodwill is initially measured at its cost, being the excess of the cost of the business combination over the Group's interest in the net fair value of identifiable assets, liabilities and contingent liabilities. After initial recognition, the group measures acquired goodwill at cost less impairment losses. Recognized goodwill impairment losses are not subsequently reversed.

Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the year ended 31 December 2015

### 3-11 Inventories

Inventories of raw materials, supplies, packaging & packing materials and spare parts are measured at the lower of cost or net realizable value. The cost of inventories is based on the weighted average principle, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. Net realizable value is the estimated selling price, in the ordinary course of business, less estimated costs of the completion and selling expenses.

The inventory of work in process is measured at the lower of cost, which is determined based on the lower of the cost last process the work in process reached, or net realizable value.

Finished production is measured at the lower of manufacturing cost or net realizable value. The manufacturing cost comprises raw materials, direct labor, and cost includes an appropriate share of overheads based on normal operating capacity.

### 3-12 Impairment

#### Non –derivative financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

#### Non-financial assets

The carrying amounts of the Company's non-financial assets, other than biological assets, investment property, inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For intangible assets that have indefinite useful lives, the recoverable amount is tested annually for impairment.

An impairment loss is recognised if the carrying amount of an asset or cash – generating unit (CGU) exceeds its recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGU.

Impairment losses are recognized in profit or loss. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognised.

### 3-13 Defined contribution plans

The Company contributes to the government social insurance system for the benefits of its personnel in accordance with according to the social insurance Law No. 79 of 1975 and its amendments. Under this Law the employees and the employers contribute into the system on a fixed percentage – of- salaries basis. The Company's contributions are recognized in income statement using the accrual basis of accounting. The company's obligation in respect of employees' pensions is confined to the amount of aforementioned contributions.

Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the year ended 31 December 2015

### **3-14 Provisions**

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

### **3-15 Revenue**

#### **Goods sold**

Revenue from the sale of goods in the course of ordinary activities is measured at the fair value of the consideration received or receivable, net of returns, trade discounts and volume rebates.

Revenue is recognized when persuasive evidence exists, usually in the form of an executed sales agreement, that the significant risks and rewards of ownership have been transferred to the customer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably. If it is probable that discounts will be granted and the amount can be measured reliably, then the discount is recognised as a reduction of revenue as the sales are recognized.

### **3-16 Rental income**

Rental income from other assets is recognized in other income.

### **3-17 Finance income and finance costs**

Finance income comprises interest income on funds invested (including available-for-sale financial assets), dividend income, gains on the disposal of available-for-sale financial assets, fair value gains on financial assets at fair value through profit or loss. Interest income is recognised as it accrues in profit or loss, using the effective interest method. Dividend income received from investments is recognised in profit or loss on the date of collection.

Finance costs comprise interest expense on borrowings, fair value losses on financial assets at fair value through profit or loss, impairment losses recognized on financial assets.

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognized in profit or loss using the effective interest method.

Foreign currency gains and losses are reported on a net basis as either finance income or finance cost depending on whether foreign currency movements are in a net gain or net loss position.

### **3-18 Income tax**

Income tax on profit or loss for the year comprises current and deferred tax. Income tax is recognized in the income statement except to the extent that it relates to items recognized directly on equity, in which case it is recognized in equity. Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

### **3-19 Deferred tax**

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the reporting date.

## Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the year ended 31 December 2015

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

**3-20 Assets held for sale or held for distribution**

Non-current assets, or disposal groups comprising assets and liabilities, are classified as held-for-sale or held-for-distribution if it is highly probable that they will be recovered primarily through sale or distribution rather than through continuing use.

Immediately before classification as held-for-sale or held-for-distribution, the assets, or components of a disposal group, are premeasured in accordance with the Company's other accounting policies. Thereafter, generally the assets, or disposal group, are measured at the lower of their carrying amount and fair value less costs to sell. Any impairment loss on a disposal group is allocated to the remaining assets and liabilities on a pro rata basis, except that no loss is allocated to inventories, financial assets, deferred tax assets, employee benefit assets, investment property or biological assets, which continue to be measured in accordance with the Company's other accounting policies. Impairment losses on initial classification as held-for-sale or held-for-distribution and subsequent gains and losses on remeasurement are recognized in profit or loss. Gains are not recognized in excess of any cumulative impairment loss.

Once classified as held-for-sale or held-for-distribution, intangible assets and property, plant and equipment are no longer amortized or depreciated, and any equity-accounted investee is no longer equity accounted.

**3-21 Legal reserve**

According to the Companies Law requirements and the statutes of the Company, 5% of the annual net profit shall be transferred to a legal reserve until the accumulated reserve reaches 50% of the issued share capital. The reserve is un-distributable; however, it can be used to increase the share capital or to offset losses. If the reserve falls below the defined level (50% of the issued share capital), then the Company is required to resume setting aside 5% of the annual profit until it reaches 50% of the issued share capital.

**3-22 End of service benefits**

End of service benefits are recognized as an expense when the company is committed clearly-without having the possibility of cancellation – a formal detailed plan to either finish the work before the normal retirement date or to provide end of service benefits as a result of the company's offer to encourage resignations (voluntary) / left the work voluntary.

If the bonus is payable for a period of more than 12 months after the date of preparation of the financial statements, they is reduced to their present value.

**4 Determination of fair value**

A number of the Company's accounting policies and disclosures require the determination of fair value, for both financial and non- financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes. Where applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the year ended 31 December 2015

**4-1 Non-derivative financial liabilities**

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date.

**4-2 Biological assets**

At fair value less costs to the point of sale capability.

**5 Other operating revenue**

**29 Financial instruments****Financial risk management****Overview**

The Group has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk.

**Risk management framework**

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board is responsible for developing and monitoring the Company's risk management policies.

## Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the year ended 31 December 2015

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's Board oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Company's Board is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the B.O.D.

**Credit risk**

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer including the default risk of the industry in which customers operate, as these factors may have an influence on credit risk

**Trade and other receivables**

The Company is dealing with one main customer (related party), which in turn distributes the credit risk on a number of customers who enjoy strong and stable financial positions. It also deals with its customers through contracts and agreements concluded with them, in addition the Company ( related party) review the credit limits granted to customers on a regular basis as it gets sufficient guarantees from its customers.

**Credit risk****Exposure to credit risk**

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	Note	Carrying amount	
		31/12/2015	31/12/2014
		L.E.	L.E.
Trade receivables	(17)	68 423 127	68 009 988
Banks credit facilities	(21)	637 074 206	742 348 289
Short term loans	(22)	-	16 000 000
Total long term loans	(20)	1 260 687 586	959 858 908

**Liquidity risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company uses activity-based costing to cost its products and services, which assists it in monitoring cash flow requirements and optimizing its cash return on investments. Typically the company ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 60 days, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters. In addition, the Company maintains the following lines of credit:

## Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the year ended 31 December 2015

A credit facility in a principal amount of L.E 637 074 206 on which the interest is charged at a variable interest rate for Facilities in Egyptian pound and US Dollars facilities.

**Liquidity risk**

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements:

	Carrying amount L.E.	Contractual cash flows L.E.
Credit facilities	637 074 206	1 710 000 000

**Market risk**

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimising the return.

The Company incurs financial liabilities, in order to manage market risks. All such transactions are carried out within the guidelines set by the Management.

**Currency risk**

The Company is exposed to currency risk on sales, purchases and borrowings that are denominated in a currency other than the respective functional currencies of the Company, primarily the L.E. The currencies in which these transactions primarily are denominated are Euro, USD, and Swiss Francs (CHF).

In respect of other monetary assets and liabilities denominated in foreign currencies, the Company's policy is to ensure that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term imbalances.

**Foreign currency risk**

Exposure to currency risk

The Group's exposure to foreign currency risk was as follows based on notional amounts:

	USD	Euro	SAR	GBP	CHF

Euro	8.62	9.142	8.540	8.695

## Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the year ended 31 December 2015

Given the current economic conditions faced by the Arab Republic of Egypt, the Company's management faces the market risks represented in the difficulty of foreign currency cash management declared at official prices, due to the shortage of cash in foreign currency in the official banking markets.

This has affected the Company's ability to provide its foreign currency operating needs to ensure the continuing of its operations / production process on a regular basis.

The Company's management resorted, in the context of applying exceptional policies to manage market and operation risks, to cover some of its foreign currency cash requirements with exceptional exchange rates, during the period, which differ from quoted prices in official banking markets, in light of the circumstances, after getting approval along with the related internal documents by the Company's senior management, to the best estimate of the price from its point of view.

**Interest rate risk**

The Company adopts a policy of ensuring that its exposure to changes in interest rates on borrowings is on a fixed-rate basis, taking into account assets with exposure to changes in interest rates.

**Capital management**

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Capital consists of paid up capital and retained earnings. The Board of Directors monitors the return on capital, as well as the level of dividends to shareholders.

	31/12/2015	31/12/2014

**35 Political and economical events**

The Arab Republic of Egypt has encountered certain events that have a significant impact on the economic sectors in general, a matter which may lead to a substantial decline in the economic activities in the foreseeable future.

Therefore, there is a possibility that the above mentioned events will have a significant impact on the Company's assets, liabilities, their recoverable/settlement amounts and the results of operations in the foreseeable future.

At the present, it is not possible to quantify the effect on the Company's assets and liabilities included in the company's financial statements, since quantifying the effect of these events relies on the expected extent and the time frame, when these events and their consequences, are expected to be finished.

On August 20, 2015 A Presidential Decree was issued of Law No. (96) for the year 2015 amending certain regulations of the income tax law No. (91) of 2005 and Decree No. 44 of 2014 to impose a temporary additional income tax, and this decree will be effective from the day following its publication , the following are the most significant amendment: -

1. Reduction of income tax rate to become 22.5% of the annual net profit.
2. Amendment for the imposition of temporary tax of 5%.
3. Modifying the tax on dividends.

Suspending the imposition of the capital tax on the output of dealing in listed securities for two years starting from 17/5 / 2015.

Juhayna Food Industries Company (S.A.E.)  
Notes to the consolidated financial statements for the year ended 31 December 2015

### 36 New Egyptian accounting standards issued but not yet adopted

During 2015 new modified version of the Egyptian accounting standards was issued that includes new accounting standards and amendments to some existing standards, to be effective for the periods starting from January 2016, with the knowledge that early adaption of these standards is not allowed. The following table shows the amendments that may have significant effect on the financial statements when applied.

New or Amended Standards	Summary of the Most Significant Amendments	Possible Impact on the Financial Statements

	<ul style="list-style-type: none"> <li>The financial shall disclose a reconciliation of the carrying amount – movement of the PPE and its depreciations- in the notes accompanying the financial statements at the beginning and the end of the current period and the comparable period.</li> </ul>	

## Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the year ended 31 December 2015

New or Amended Standards	Summary of the Most Significant Amendments	Possible Impact on the Financial Statements
	<ul style="list-style-type: none"> <li>The strategic (major) spare parts and stand-by equipment can be classified as PPE when the entity expects to use them for more than one period ( when the definition of PPE applies thereto).</li> </ul>	
<u>EAS (14)</u> Borrowing Costs	Elimination of the previous benchmark treatment that recognized the borrowing cost directly attributable to the acquisition, construction or production of a qualifying asset in the Income Statement without being capitalized on the asset.	For the companies that applied the benchmark treatment, the note shall be as follows: The entity shall apply this Standard to the borrowing costs attributable to the qualifying assets, where the start date of capitalization falls within or after the date of the implementation of this Standard.
<u>EAS (41)</u> Operating Segments	EAS 33 "Segment Reports" has been replaced with EAS (41) "Operating Segments".  Accordingly, the disclosure and the volume of the required disclosures that the Segment Reports must disclose on; mainly depends on the Segments information presented to Chief Operating Decision Maker (CODM) of the entity to make decisions on the resources that must be allocated to the segment and assess its performance.	On the date of implementing the standards the entity shall re-present the information corresponding to the earlier periods including the interim periods, unless the information is not available and the cost of preparing such information is too high.
<u>EAS (25)</u> Financial Instruments: Presentation	Any financial instrument with a resale right shall be classified as an equity instrument instead of classifying it as a financial liability; if it meets the conditions in accordance with the paragraphs (16 A or 16 b) or paragraphs (16 c and 16 d) of the same Standard, from the date the instrument has all the features and meets all the conditions set out in those paragraphs. An entity shall re-classify the financial instrument from the date the instrument ceases to have all the features or meet all conditions set out in those paragraphs.	Re-presenting any financial instrument meets all the conditions including all the presented comparative periods.

## Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the year ended 31 December 2015

<p><u>Egyptian -Standard No.(42):</u> The Consolidated Financial Statements</p>	<ul style="list-style-type: none"> <li>• The new Egyptian Accounting Standard No. (42) "<i>The Consolidated Financial Statements</i>" was issued and accordingly Egyptian Accounting Standard No. (17) "<i>The Consolidated and Separate Financial Statements</i>" has changed to become "<i>The Separate Financial Statements</i>". Pursuant to the new Egyptian Accounting Standard No. (42) "<i>The Consolidated Financial Statements</i>" The control model has changed to determine the investee entity that must be consolidated.</li> <li>• Accounting for the changes in the equity of the parent company in a subsidiary are accounted for as transactions with equity holders in their capacity as equity holders.</li> </ul>	<p>Retroactive amendment to all the comparative figures of the consolidated financial statements and financial information presented.</p> <p>Currently, the management is assessing the potential impacts on its consolidated financial statements resulting from application of the standard.</p>

Juhayna Food Industries Company (S.A.E.)

Notes to the consolidated financial statements for the year ended 31 December 2015

- Any Investment retained in the former subsidiary at its fair value at the date when control is lost at fair value and recognize any resulting difference in the Income Statement.
- Losses applicable to the Non-Controlling Interest "NCI" in a subsidiary including component of Other Comprehensive Income are allocated to the owners of the entity and the NCI even if this causes the NCI to have a deficit balances.

Egyptian Standard No. (18):  
Investments in Associates

The accounting treatment of the joint ventures was added to this standard; accordingly the Investments in associates and joint ventures shall be accounted for that investments using the equity method in the Consolidated and Individual Financial Statements.

Retroactive amendment to all the comparative figures for the disclosures presented and the presented financial information.

- The entity shall discontinue to use the Equity method from the date when its investment ceases to be an associate or a joint venture provided that the retained interest shall be re-measured using the fair value and the difference shall be recognized in the Income Statement .
- If an investment in an associate becomes an investment in a joint venture or vice versa, the entity should continue to apply the Equity Method and do not re-measure the retained Interest.
- If an entity's ownership interest in an associate or a joint venture reduced, but the entity continues to apply the Equity Method, the entity shall reclassify the proportions of the gain or loss that previously been recognized in OCI relating to that reduction in Ownership interest to profit or loss statements.

Currently, the management is assessing the potential impacts on its financial statements resulting from application of this standard.

Egyptian Standard No. (44):  
Disclosure of Interests in Other Entities

- A new Egyptian Accounting Standard No.(44) "**Disclosure of Interests in Other Entities**" was issued in order to comprise all the required disclosures pertaining to the investments in subsidiaries ,associates, joint arrangements ,and the unconsolidated Structured Entities. The objective of this standard is to require an entity to disclose the information that enable users of its financial statements to evaluate the nature and risks associated with its interests in other entities and the effects of those interests on its financial position, financial performance, and cash flows.

Retroactive amendment to all the comparative figures for the disclosures presented.
